Rocket Air-Blower

VSSK9572

Rocket-shaped air-blowers are made from non-toxic, environmentally friendly material, resistant to both high and low temperatures and tear-proof. It has an air valve to prevent it from breathing in dust and blows out a powerful stream of air to blow dust away - making lens, camera, and filter cleaning a breeze. It's also great for removing crumbs from your keyboard! The rocket air's unique rocket-shaped design can stand upright, and its nozzle can be removed.

Multifunctions Oil 120 ML VSSL9694

Break Free Multifunctions Oil
High performance and preservative.
Effectively Clean, Lubricate and Protect metal
Penetrates and spreads along metal surfaces into every pit and crevice to undercut contamination and lift residue away where it can be removed.
Long-lasting lubricating film dramatically reduces adhesion of sand, grit or other abrasives which cause wear and failure.
Corrosion inhibitors prevent the formation of rust while Break-Free's unique boundary film protects metal surfaces from moisture and other contaminants.
Specially formulated synthetic oils won't lose viscosity, dry out or stiffen up in extreme environments - such as cold, heat, dust, dirt, humidity and even salt air - keeping equipment in ready condition for months at a time.

PTFE Spray VSSK9928

Universal Dry lubricant with Teflon.
Lubricates and protects metal and plastic parts
Aerosol 150ml

Applications:

On slide rails and guides
On conveyor belts, transport rollers, and transport chutes
On windows: Tipping mechanisms, locks, hinges
On cutting tools and packaging machines
As continuous lubrication for shafts in plastic bearings
As a water-resistant coating of paper and cork seals, as well as seal packaging
Used instead of separating agents containing silicone and wherever oil or grease lubrication is not permitted or desired.

Grease

Krytox GPL 205 High temp. grease VSSK9556

GPL-205 IS AN EXCELLENT ALL-PURPOSE GRADE OF KRYTOX® GREASE

Krytox® was tested at temperatures greater than 900°F (482°C) in the presence of oxygen and at pressures up to 35 bar with no ignition. Krytox® greases are recommended by many major bearing manufacturers for long-life lubrication in severe applications. The superior film-forming capability of Krytox® grease provides a thicker oil layer and reduces wear. Krytox® grease is compatible with all metals and seal materials. SPECIFICATIONS:
Consistency/Color: White buttery grease Service Temperature (High): 400 Degress F (204 Deg C) Service Temperature (Low): -33 Degrees F (-36 Deg C)

Krytox GPL 227 VSSL9676

Extreme high performance grease, color : White contains sodium nitrite for performance at high temperatures -30 /+288 Deg C Lubricates bearings metal and plastic parts.

Silicon Grease VSSK9532

Shin Etsu G-501 Silicon Grease
High Grade silicon grease.

G501 uses a special silicone fluid as the base oil. It is specially formulated for lubrication and noise reduction for blower bearings and plastic parts. With G501, there is a low incidence of stress cracks in polycarbonate (PC), polyacetal (POM), ABS and other plastics. It also provides better lubrication for steel-on-steel applications than conventional silicone greases.

Contents : 80gr

Molykote BR2 Plus VSSL9640

High performance grease for long term lubrication.

Molykote® BR-2 Plus High Performance Grease is a high performance grease with solid lubricants for metal/metal combinations involving slow to fast movements, particularly with medium to high loads

APPLICATIONS

- Used successfully on roller bearings, plain bearings, sliding guides, roller guides, ball-and-socket joints, splined shafts and threaded spindles.

Resistant to water wash-out , good corrosion protection.

Contents : 100g

High conductive grease VSSK9801

Low electrical resistivity
High thermal conductivity
Good plastics compatibility- testing advised
Capable of sustaining operation at very high temperatures
Excellent water resistance and adhesion characteristics
Ideal for applications where low electrical resistivity is required

Tube 50ml

High temperature grease VSSK9802

Lubricates at temperatures up to 250 Gr Celsius.

Typical Product Applications

HTG is suitable for use in many applications where good lubrication and consistent performance at elevated temperatures is required. Examples include photocopier drive systems, laser printer and thermal printer gears, heavy industrial machinery in continuous operation and lubrication of reflow and flow soldering machine chains. Safe on most plastics.
